**⚠ WARNING:** To avoid serious personal injury:

- Carefully and strictly follow assembly instructions. Improper assembly of furniture can result in structural failure, instability of the product, or tip-over.
- Monitor and carefully control the assembly components. These include small parts and hardware that may present a choking hazard to small children. Bob's furniture should be assembled only by responsible adults and children should not be involved in the assembly process.
- Where provided, wall mounting hardware should always be used as prescribed in these instructions to anchor furniture to walls. Proper use of the wall mounting hardware can significantly reduce the potential for furniture tip-over and crushing injuries.

BACK & END PANEL

SKU#10002487002/10002488002/10002485002

## STEP 1

Place Storage Stair Drawer Unit (A)  
on the side and attach Back  
Panel (B) using Bolts (1).

## STEP 2

### OPTION A - LEFT

Place Storage Stair Drawer Unit (A)  
upright. Attach Hand Rail (C) to  
Storage Stair Drawer Unit (A) using  
Bolts (1). Then attach End Panel (D)  
to Hand Rail (C) and Back Panel (B)  
using Bolts (1).

### OPTION B - RIGHT

Place Storage Stair Drawer Unit (A)  
upright. Attach Hand Rail (C) to  
Storage Stair Drawer Unit (A) using  
Bolts (1). Then attach End Panel (D)  
to Hand Rail (C) and Back Panel (B)  
using Bolts (1).

MADE IN VIETNAM

**WARNING: TO HELP PREVENT SERIOUS OR FATAL INJURIES FROM ENTRAPMENT OR FALLS:**

---

- Never allow a child under 6 years on upper bunk.
- Always use the recommend size mattress or mattress support, or both, to help prevent the likelihood of entrapment or falls.
- Use only mattress which is 74-75" long and 37-1/2-38-1/2" wide on on twin size upper/lower bunk.
- Ensure thickness of mattress and foundation combined does not exceed 9" and mattress is at least 5" below upper edge of guardrails.
- Always use guardrails on both sides of the upper bunk.
- If the bunk bed will be placed next to a wall, the guardrail that runs the full length of the bed should be placed against the wall to prevent entrapment between the bed and the wall.
- Prohibit horseplay on or under bed(s) and prohibit jumping on the bed.
- Prohibit more than one person on the upper bunk.
- Use staircase for entering and leaving upper bunk.
- Maximum total weight is not to exceed 300lbs on the upper bunk.
- Periodically check and ensure that the guardrail, staircase, and other components are in their proper position free from damage, and that all connectors are tight.
- Do not use substitute parts. Replacement parts, including additional guardrails, may be obtained from our customer service department.
- Use of water or sleep flotation mattress is prohibited
- Use of a night light may provide added safety precaution for child using the upper bunk.
- Follow the information on the warnings appearing on the upper bunk end structure and on the carton.
- Keep this instruction for future reference.

**STRANGULATION HAZARD** - Never attach or hang item to any part of the bunk bed that are not designed for use with the bed; for example, but not limited to, hooks, belts and jump ropes.

**DO NOT REMOVE THIS LABEL FROM THE BED, KEEP THIS INSTRUCTION FOR FUTURE REFERENCE**

**NOTICE:**

These bunk beds are made with slats to support a standard inner coil mattress. Any all-foam mattresses without support are not recommended to use with this bed. The support system and bunk bed meet or exceeds all ASTM CPSC National Bunk Bed Safety Standards.

If you wish to use an all-foam mattress, you will need to purchase and place support over the slat system to support the all foam mattress. Bunk support panels should be the approximate size of the mattress and approximately 3/8" thick and made of plywood, MDF, or any other solid material.
