

1. Assemble the thick board to the thin board with 4 long poles. Tighten 4 screws to secure 4 long poles to the thick board. Attach the cushion onto 4 screws.
2. Assemble another thin board to the last thin board with screwing another 4 long poles to tighten. Follow the same steps for the board with socket.
3. Assemble the wood frame to the socket frame with screwing 4 long poles to tighten. Fasten 4 screws to secure the wood frame to 4 long poles. Attach the shade peg onto 4 screws.
4. Set small poles into socket frame and then insert the shade.
5. The lamp is completed.

GENERAL PRODUCT INFORMATION:

This product is suitable for dry locations only.

IMPORTANT SAFETY INSTRUCTIONS:

This portable lamp has a polarized plug (one blade is wider than the other) as a feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. **DO NOT ALTER THE PLUG.**
